

# MSBase

Neuro-Immunology Registry

## BENEFITS OF MEMBERSHIP

### PUBLICATIONS

Qualify for co-authorship and engage in peer reviewed research – MSBase investigators have produced over 100 publications in high impact journals!

### SUB-STUDIES

Create, lead and join sub-studies – connect with neurologists around the world on thematic studies or create a national sub-study.

### DATA ACCESS & STATISTICAL SUPPORT

Request access to the global dataset to answer research questions with an added option of requesting statistical support to conduct your analyses.

### RESEARCH TOOLS HELPFUL FOR YOUR PRACTICE

Gain access to comprehensive MSBase data entry tools to track and monitor your patients over time. Enjoy free access to iMed Web, a powerful easy to use data collection method, and the opportunity to join the MSBase Imaging Repository, which offers complimentary access to fully AI-powered imaging quantitative metrics.

### ONGOING SUPPORT

Receive technical, membership and research support from the MSBase Operations team.

### OPPORTUNITIES FOR LEADERSHIP

Join a passionate, collaborative network of MSBase investigators, with the opportunity to join the Scientific Leadership Group and numerous sub-committees.

### GLOBAL GOVERNANCE STRUCTURE

Benefit from a research platform with 20 years' experience, facilitated by a comprehensive, globally accepted governance framework.

### DATA SECURITY

Retain ownership of your data, have confidence that it's kept safe and secure, and choose how your data is used.
